Hiking & Safety Tips

Waiting for Breakfast by Nancy Lehrer
Spirit of the Mountains Photo Contest 2010 Winner – Best in Show

TICKS

Ticks are plentiful and some may carry diseases. Check your clothing and exposed skin after hiking.

SOUTHERN PACIFIC RATTLESNAKES

These snakes make the mountains their home. Stay away from them, and they won't bother you. In the event of a rattlesnake bite, DO NOT make an incision or try to draw out venom. Splint the extremity and transport victim to an emergency room.

FOOTWEAR

Wear sturdy footwear – hiking boots or sneakers with good tread.

POISON OAK

Poison oak can be identified by its clusters of three shiny leaflets. The best way to avoid it is to stay on trails.

NEVER HIKE ALONE

Use the buddy system. That allows someone to go for help if you encounter trouble.

HELP PREVENT WILDFIRE

Do not smoke on trails or in brush areas.
Do not build fires on the ground.

KEEP HYDRATED

Carry and drink plenty of water. One quart for short walks, more for longer hikes.

NOTE

Whether you are an equestrian, hiker, or mountain bicyclist, please help us protect our natural areas by staying on designated trails. Be considerate of other trail users and respect private land.
